## SUMMARY

Passionate Web Developer with 2 years of experience. Skilled in languages and frameworks(HTML, CSS, JavaScript, React, NodeJS, Ruby on Rails), building responsive, functional web apps. Problem-solving mindset, AWS practitioner, Solution architect and staying current with tech trends. Detail-oriented, delivering exceptional user experiences. Collaborative team player seeking innovative web development opportunities. Proud to have graduated in the top 5% of the ALX Tech program and been selected for the Gold Fellowship program.

## EXPERIENCE

MICROVERSE, *Remote*

**Mentor (Volunteer)** | February 2023 – Present

- Mentoring 2 junior web developers per month, providing technical support through code reviews.
- Providing mentorship through Zoom and Slack
- Proposing improvements to code organization to improve code quality and overall performance by 15%.
- Providing advice and tips for 8 students on how to maintain motivation to maintain longevity in the program.

MMCY TECH, *Addis Ababa, Ethiopia*

**Web developer** | September 2021 - Present

- Developing websites for diverse clients by utilizing web development technologies.
- Leveraging expertise in web development to deliver high-quality and user-friendly websites, ensuring the optimal performance and functionality of the websites.
- Working closely with project managers and account managers.
- Improving customer satisfaction by 10%.
- Built the entire front end of the application with Javascript, React, and TailWind.
- Built web application for event registration and Improved user experience by 20%.

## EDUCATION

ALX Africa | April 2023 – March 2024

**AWS Cloud practitioner and Solution architect, Full-Time**

## SKILLS

**Front-End:** JavaScript, React, Redux, jQuery, Vue, Tailwind, HTML, CSS

**Back-End:** NodeJS, Postgresql, MySQL, Rails, MongoDB

**Tools & Methods:** Git, GitHub, AWS, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

**Professional:** Remote Pair-Programming, Teamwork, Mentoring

**Soft-skills-** Team Player, Time Management, Critical thinking

## PROJECTS

**Serverless Todo App**

- Implemented using AWS-lambda service. It allows users to sign in and create, upload, edit, and delete posts.

- Built with: HTML, CSS, Reactjs, Nodejs, Serverless

- [Github Link](#)

**Task Manager**

- Task management application

- Developed with MERN stack (MongoDB, Express, React, Node.js)

- Authentication for secure user access

- Seamless task creation,

- Engaged in comprehensive AWS Cloud practitioner and Solution Architect training, dedicating over 500 hours to mastering cloud computing principles, architectural best practices, and AWS services.
- Applied theoretical knowledge to real-life scenarios, participating in various assessments to demonstrate proficiency in designing scalable and cost-efficient solutions on the AWS platform.
- Completed extensive practical labs and tests, solidifying understanding of cloud concepts and honing skills in deploying, managing, and securing applications on AWS infrastructure.

MICROVERSE | January 2023 – September 2023

**Remote Full Stack Web Development Program, Full-Time**

- Spending 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developing skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Udacity | December 2022 – May 2023

**Cloud Development, Nano Degree**

- Built different apps leveraging microservices, Kubernetes clusters, and serverless application technology.
- Migrated and monitored microservices and implemented necessary security measures.

ALX Africa | July 2021 – July 2022

**Front End Web Development, Full Time**

- Built different web apps using different programming languages such as HTML, CSS, JavaScript, and React.
- Made databases and business logic for websites.

tracking, and deletion  
 - User-friendly interface for enhanced usability  
 - Built with: Front end - ReactJS and Redux, Backend -NodeJs, Express, MongoDB  
 - [Github Link](#)

**Movies App**

- Aims to develop a movies website using the MoviesDB API that allows users to like and comment on listed movies, as well as browse through a collection of movies and view detailed information about them.  
 - Built with: HTML, SCSS, Javascript, RestAPI, WebPack
